

## **Himaya Haven CIC Calls for Peace and International Law to be Enforced**

Himaya Haven CIC stand in solidarity with the innocent Palestinian and innocent Israeli people and extend our sincere thoughts and prayers to all those suffering. We call on the international community to demand peace: an immediate ceasefire, safe return of hostages, and unrestricted access to humanitarian aid in Gaza. Over 2 million Palestinians have been living in an open-air prison for decades, silence cannot continue.

We wholeheartedly condemn the murder, torture, and kidnapping of Israeli civilians by Hamas, and the use of the tragic situation in Israel as justification for the collective punishment of Palestinian civilians by the Israeli government. The fundamental tenet of proportionality in international law should guide responses to conflicts. And yet, we have seen the destruction of homes, schools, hospitals, and essential infrastructure, as well as forced displacement, with a daily rising number of civilian casualties.

What we are seeing is genocide, and ethnic cleansing of Palestinians. No one can stay silent or impartial. We must be capable of feeling deeply any injustice committed against anyone, anywhere, or humanity is lost.

We know that the ongoing conflict is reigniting religious and ethnic tensions globally and urge communities to have zero tolerance for all forms of Islamophobia and antisemitism. We thus stand against the media narrative that has been dehumanising Palestinian lives. Misinformation online should be countered as they seek to deliberately stoke the flames of division. For example, support for Palestinian human rights is being conflated with support for Hamas or even antisemitism. To be clear, support for Palestinian human rights is not synonymous with antisemitism, and it is essential that these concepts are not misrepresented or exploited to suppress legitimate expressions of concern and advocacy. The right to express one's concerns and opinions on matters of global importance is a fundamental pillar of democratic societies.

We are concerned for our faith communities in the UK. Hate crimes towards Muslims is already the highest of any faith group, followed by hate crimes against Jewish communities. Islamophobia and antisemitism have no place in a just and equitable society. It is essential to recognise that individuals should not be held accountable for the actions of political or militant groups because they share the same religious or ethnic background. Current tensions are likely to fuel further hatred and discrimination.

- We encourage communities to come together, and stand for justice and peace, and to report all hate crimes to the Police.
- We urge the UK government to take more robust and proactive measures to address the growing concerns surrounding Islamophobia and antisemitism and demonstrate its commitment to addressing both these issues.
- We call for renewed diplomatic efforts for a sustainable and peaceful resolution that ensures the safety and prosperity of all people in the region.

Despite our collective pain, we must remain hopeful and take action now to achieve lasting peace.
